

## OZARK FLYERS

### AMA CHARTERED CLUB # 743

Dear prospective Ozark Flyer.

The Ozark Flyers are a group of model aviation enthusiasts who meet to build, fly, and discuss the Hobby/sport of radio control model aircraft. We are primarily a powered club, although several members enjoy electric powered models and helicopters. Our meetings are held at the flying field during the warm months and inside during the winter on the second Monday of each month at 6:30 PM (exact location will be posted at the field). Meetings run about one hour in length . Dues are stated below. We are a charter member of the Academy of Model Aeronautics, and as such, require membership in that organization to join. The AMA membership covers our (and your) insurance liability with the city of Fayetteville . During the year we hold several social gatherings and as many flying activities as possible over the flying season. If you are a capable flyer or are a student ( never flown before) you are most welcome. We have several members who will teach you to fly (free of charge) which will save your airplane as you learn to fly. Come join the fun , let us welcome you to our wonderful Hobby !! Club Dues - \$ 60.00/year; Initiation fee - \$25.00; Junior Dues:(18 or under)- \$30.00/year. Junior Initiation Fee - \$12.50; (2<sup>nd</sup> Family Member (Dues Only) - \$30.00/year).
